DPL70-AM3 TRASH PUMP

The LOADSTAR DPL70-AM3 is a heavy service, self priming, centrifugal pressure/ general service pump. This pump features quality usually found in heavier and more expensive units. These pumps are assembled using the finest components available. The Yanmar "LV" Series and Kubota(Tier 4) OC Series, are popular and proven lightweight 4-cycle air cooled engines. These tough little diesels and a heavy duty pump end combine to create a high performance portable diesel trash pump. The DPL70-AM3 will provide the user with safe, easy starting, reliable service and life many times that of gasoline powered counterparts.

SPECIAL FEATURES:

- Super duty TIG welded stainless steel square tube frame
- Variable speed governor allowing pump speed to match the job
- Self priming with up to 26.5 Ft. Suction Lift
- Will handle spherical solids up to 1.5" diameter
- Easy quick release cleanout (Front T Handles)
- Recoil Start with Manual Decompression release
- Heavy service vibration isolation & non-skid feet
- Self bleeding diesel fuel tank with filter system
- 12 Volt 15 amp stainless steel auxiliary receptacle (marine type)
- This is a lightweight, rugged diesel pump that works and doesn't break!

ENGINE:

- Model : Yanmar LV-70
- Combustion system : Direct Injection
- Displacement cc (cu.in.) : 320 (19.52)
- Bore x stroke mm (in.) : 78mm x 67mm 3.071 x 2.64
- Engine speed maximum: 3600
- Output- Intermittent HP: 6.4 Hp

- Fuel tank cap: 2.7L / 2.8QT
- Lube oil cap: 1.10L /1.16 QT
- Starting System: Recoil Standard/ Electric optional
- Auxiliary Recepticle: 15 amps max at 12 volts | 10 amps continuous output

PUMP:

- LOADSTAR™ Model : DPL70-AM 3
- Suction & discharge : FEM-NPT 3x3
- Maximum flow : 350 GPM
- Pressure (max.) : 40 PSI
- Suction lift (max.) : 26.5 FT
- Spherical solids (in.) : 1.5"
- Seal : Silicon Carbide Std.
- Housing : Cast Iron Class 30
- Impeller : Malleable Iron

DIMENSIONS:

- Dry weight: 207 LBS
- Length: 24 Inches
- Width: 18 Inches
- Height: 22 Inches
